## A. Description

- a. Provide a detailed description of the proposed activity or program: **In need of a new camera, specifically a Canon 5D Mark IV. We're also looking to get two lenses for the camera. We're looking at the Sigma 120-400mm 1:4.5-5.8 APO HSM (telescopic lens) and the Sigma 500mm 1:4.5 APO (fixed lens). We'll also need some accessories like a tripod and a battery to go along with the camera.**
- b. Outline how completion of the proposed activity will benefit students, the department, division or the institution. Is there a community benefit? **This will benefit all of the athletic teams and students. It will allow us to take pictures of them at media days, during practice, and during games and events. It will allow us to grow the audience that follows Western Texas College on our website, social media, and our media guide.**
- c. Detail the implementation plan.  
**We'll look to use the camera at sporting events, media days, practices, and any other time it is appropriate. The pictures will be used to improve the quality of the pictures that we have on our website and social media.**
- d. Explain how the activity or program will be evaluated.  
**It will be evaluated on the quality of pictures it takes and its ease of use.**
- e. If applicable, list the equipment and materials needed to complete the project.
